Praying for...

Paul Sills has a fractured foot which has been wrapped by the doctor along with the advice to stay off it as much as possible. **Aletha** continues with therapy to regain usage of her right leg and arm. These are difficult times for the Sills and your words and deeds of encouragement and support will surely lighten their shared burden.

Tamara Nightingale's daughter, **Abbey**, was re-admitted to the hospital for a shunt replacement. Word has been received that she is now back home. Your continuing prayers are asked for this young lady for her recovery and health.

Jane Vorndran shared with the congregation on Sunday that she is in the beginning stages of multiple sclerosis. In her words, "I've been put on a new path. Mike and I now know and support each other while we go down this path together." This church family will also be walking that path with them, supporting them with loving prayers and helping hands.

Dave Bickel is scheduled for pacemaker surgery at 9:00 on September 23rd at the Heart Center at Parkview North. This is a serious surgery requiring a 23 hour hospitalization. Our prayers are with Dave and with Evelyn as they, too, travel a new path.

Janet Peters asks for prayers for Kent, suffering with cancer.

Giving thanks...

Alberta Ilnicki gives thanks for God's grace and the Indianapolis doctor who has been treating her macular degeneration. All indications are that she is not losing ground but is maintaining her ocular status.

Arielle Wolf also expressed her gratitude in the fact that her cancer is now in remission and that there is no sign of additional growth. In her words, "I walk daily with my Jesus, the great physician." We also rejoice with her good news.

Robin and Rosemary La Rue write, "It is with thanksgiving in our hearts that we share immense appreciation for the incredible concern and care that has been showered upon us: cards, food, prayers and fellowship."

Craig Colvin travels to El Salvador for Habitat for Humanity Project.

Craig, with a team of four others, left Saturday for a work project in the village of Santa Ana to help build concrete homes. He and his team, along with several others, will be mixing concrete, digging foundations, painting, putting on roofing and any other work required to build homes. This is hard work and he will be putting in many "sweat hours."

On the local level, Craig works with the Habitat team at Fuller's Landing which is located on W. Cook Rd. It will be a 120 lot community when complete with sidewalks throughout and a playground. Your prayers are asked for God's traveling and safety mercies for Craig and his team.

"You will find that as you look back on your life that the moments when you have really lived are the moments when you have done things in the spirit of love.
~ Henry Drummond
